

of this application, the Applicant has canceled Claims 5-6 and 11-12 without prejudice and reserves the right to file a divisional or continuation application at a later time. The Examiner has indicated that Claims 6-7 and 12, if rewritten in independent form, are patentable over the prior art of record and therefore, it is respectfully submitted that the application is allowable since Claim 1 now incorporates the limitations of Claims 5-6 and Claim 10 now incorporates the limitations of Claim 11-12.

Applicant has amended the specification to overcome the Examiner's objection of the specification although element 15 was recited several times in the specification on Page 2, at lines 11, 16, and 20.
